

Gatefold inner card

Ingredients needed:

2 sheets of A4 card

Sheet of toppers

2 sheets of fancy paper for punching borders

Tools:

Trimmer

Scissors

Pencil/ruler/knife

Border punch

Cut one piece of card 26x14 ½ cm, cut the other piece in half and trim the 2 pieces to 19.7x14 ½ cm

Take the longest piece and score at 6cm from each end to create a gatefold

Score the other 2 pieces at 6cm from only 1 side on each

Take the 2 small pieces and line each one up with the flaps on the gatefolds and stick them together

Now you can decorate, I have used a border punch and peel offs to decorate each edge and mixed size toppers which have been matted and layered, but the choice is yours.
